

AHNS 2016 - Final Changes Flyer

- Pg. 62 – Keynote: Dave Williams, MD** – Talk title is “Perspectives on Peak Team Performance: Lessons from the Edge”
- Pg. 66 – Instructional Course: Oropharynx Cancer Management 2016** – Faculty Withdrawn – Ryan Li has been invited to replace Dr. Petersen and Dr. Cherie Ann Nathan will moderate the session.
- Pg. 67 – Instructional Course 1 – Skull Base Surgery: Open and Endoscopic Approaches** – Talk title updates
Introduction – Ehab Hanna, MD
Endoscopic Approaches – Nicolao Piero, MD
Open approaches – Dan Fliss, MD
Education and Training – Ian James Witterick, FRCSC
Q&A and Case Presentation – Ehab Hanna, MD
- Pg. 70 - Instructional Courses 3 - Robotic Surgery for Oropharyngeal and Laryngeal Cancer** – Talk title and Faculty listing update – Robotic Surgery on Oroparyngeal Cancer by Tsung-Lin Yang, MD, PhD
- Pg. 95 – Panel: Technology for Assessment of the N0 Neck-Sentinel Node Lymphiscintigraphy and Ultra Sound** – corrected titled and speakers.
Ultrasound and Nodal Assessment – Pankaj, Chaturvedi, MBBS, MS
Applications in Cutaneous Disease – Ceclia Schmalbach, MD, MS
Application of Sentinel Node Biopsy to Mucosal Lesions – Sandro J. Stoeckli, MD
Case Presentations – Francisco J. Civantos, MD
- Pg. 95 - Lunch with the Professors - Behavioral Science in Head and Neck Cancer** – Titles and talk times updated
12:30pm – Introduction – Anil Chaturvedi, MD
12:35pm – Behavioral Changes and Incidence of Head and Neck Cancers - Anil Chaturvedi, MD
12:50pm – Cancer-Related Cognitive Impairment in People Treated for Head and Neck Cancer – Lori Bernstein
- Pg. 97 – Panel: Technologies Transforming Parathyroid Surgery** - Title change full session.
Normocalcemic Hyperparathyroidism and Normohormonal Hypercalcemia: Anything But Normal! – Ralph Tufano
Preop Imaging State of the Art 2016 – David Goldenberg
IOPH monitoring: Pearls and Pitfalls – Joseph Scharpf
Radioguided Parathyroid Surgery – Brendan C. Stack
4 Gland Exploration vs. Focused Surgery: When to do What – Maisie Shindo
- Pg. 119 – Lunch with Professors: Management of Combined Modality Toxicities** – Updated Talk title: Jolie, Ringash, MD talk title is Xerostomia
- Pg. 112 – Video Sessions,: How I Do It – Part 1** – New faculty – Zhen Gooi
- Pg. 113 - Description of Dave William’s talk** – The International Space Station is the most complex collaborative project in history providing an orbiting platform that has had humans living continuously in space for the past fifteen years. The lessons learned from this project are numerous including the importance of collaboration, partnerships and managing unexpected change. Living and working in space has provided astronauts with unique perspective on teamwork, peak performance and leadership. This presentation will discuss these lessons as they apply to healthcare. Ranging from the role of high reliability organizations to risk management, safety and quality, the lessons from orbit are applicable in both the operating room and in all aspects of clinical care.
- Pg. 128 – Proffered Papers: Salivary Gland: S205** – New Presenter – Pankaj Chaturvedi
- Pg. 135 – Proffered Papers: Cancer Screening/Detection: S251** – Changed Presentation Title To – “MRI Assessment of Lymphatic Extranodal Extension in Patients with Oropharyngeal Carcinoma”
- Pg. 136 – Poster Session** – Ben Judson and Ken Byrd are the judges for the Nasopharynx/Sinuses/Skull Base Category
- Pg. 142 – Proffered Papers: Epidemiology: S289** – Withdrawn
- Pg. 146 – Video Sessions,: How I Do It – Part 12**– Updated Titles and Faculty List
Forearm Free Flap – Derrick Lin, MD
Selective Neck Dissection – Jatin Shah, MD
Submental Island – Urjeet Patel, MD, MD
Thyroidectomy – Jeremy Freeman, MD
Bone Flap for Mandible Reconstruction – Adam Luginbuhl, MD
Internal Mammary Vessel Exposure For Head and Neck Microvascular Reconstruction – Tamer Ghanem, MD, PhD
Supraclavicular and Scapular Tip Combine – Zhen Gooi, MD

Supraclavicular and Scapular Tip Combine – Jason Ying Kuen Chan, MD

Pg. 153 – Panel: Management of Larynx/Hypopharynx Cancer – Faculty change – Daniel Robert Clayburgh will speak in place of Peter E. Andersen

Pg. 170 – Proffered Papers: Cancer Biology IV: S456 – Updated Author List / New Presenter

Rahul Pal, Paula Villarreal, Tyra Brown, Jingping Yang, Susan McCammon, Suimin Qiu, Gracie Vargas; UTMB

Pg. 192-249 – Poster Listing – CHANGES – Withdrawals – P158, P212, P352, P515, P714

P103 – New Presenter – Rohan Walvekar, MD

P162 – Updated Author/Institution List - Ali C Yumusakhuylyu, MD¹, Isa Ozbay, MD², Rishabh Sethia, BS³, Virginia Diavolitsis, MD⁴, Matthew Old, MD⁵, Theodoros Teknos, MD⁵, Amit Agrawal, MD⁵, Stephen Kang, MD⁵, Ricardo Carrau, MD⁵, James Rocco, MD, PhD⁵, Enver Ozer, MD⁵; ¹Ohio State University Department of Otolaryngology Head and Neck Surgery Marmara University Department of Otolaryngology Head and Neck Surgery, ²Ohio State University Department of Otolaryngology Head and Neck Surgery Dumlupinar University Department of Otolaryngology Head and Neck Surgery, ³Ohio State University College of Medicine, ⁴Ohio State University Department of Radiation Oncology, ⁵Ohio State University Department of Otolaryngology Head and Neck Surgery

P271 – New Presenter – Bruce Haughey

P330 – New Presenter – Matthew Spurr

P397 – New Presenter – Samip N Patel, MD

P430 – Updated Author List - Sidney J Starkman, MD, Ellen L Tokarz, BS, Jia Zhao, MD, Michael Cipolla, MD; University at Buffalo

P490 – New Presenter – Sewit Teckie, MD

P520 – New Presenter – Ron J Karni, MD

P578 – Updated Author/Institution List - Rizwan Aslam, DO, MS, FACS¹, Paul Friedlander, MD, FACS¹, Mustafaa Mahmood, BA², Blair Barton, MD¹, Emad Kandil, MBA, MD¹, Huzaiyah Mahmood³; ¹Tulane University School of Medicine, ²Southern Illinois University School of Medicine, ³Vanderbilt University

P708 – Updated Author/Institution List - Rizwan Aslam, DO, MS, FACS¹, Paul Friedlander, MD, FACS¹, Mustafaa Mahmood, BA², Blair Barton, MD¹, Emad Kandil, MBA, MD¹, Huzaiyah Mahmood³; ¹Tulane University School of Medicine, ²Southern Illinois University School of Medicine, ³Vanderbilt University

Pg. 173-182 – Faculty Listing – New Faculty

Daniel Robert Clayburgh, MD, PhD – Oregon Health & Science University, Portland, OR

Zhen Gooi, MD – University of Chicago Medicine, Chicago, IL

Tamer Ghanem, MD, PhD – Henry Ford Health System, Detroit, MI

Ryan Li, MD – Oregon Health & Science University, Portland, OR

Pg. 183-187 – Disclosures - New disclosures

Marcia Brose BMS, Honoraria, Consultant; Kolltan Pharm., Research, Investigator - clinical trial; Astra-Zeneca, Research, Investigator - clinical trial; Roche/Genentech, Research, Investigator - clinical trials; Novartis, Research, Primary investigator - clinical trials; Eisai, Research, Primary Investigator - clinical trial; Exelixis, Honoraria, Consultant; Eisai, Honoraria, Consultant; Bayer Healthcare Pharmaceuticals, Honoraria, Consultant

Clifton Fuller Elekta AB, Consulting Fee, Consultant; GE Health Technologies, Research, Consultant; Elekta AB, Research, Consultant

Martin Kast IRX Therapeutics, Research, Independent Contractor

Georges Lawson MedRobotics, research grant, Co-Investigator; Intuitive, travel expenses, teaching/speaking

Dong Shin Bristol-Myers Squibb, IP Rights, Consultant; Astellas, Inc., Research funding support, Research; Bristol-Myers Squibb (BMS), Research funding, Research

Andrew Sikora Advaxis, Research, PI of investigator-initiated clinical trial

Michael Singer Medtronic, Consulting Fee, Consultant

Update to Industry Events

Pg. 54 – AstraZeneca Satellite Symposia - Title and Description Update –

Overcoming Immune Evasion: Immune-Mediated Approaches in Oncology and Their Rationale in Advanced Squamous Cell Carcinoma of the Head and Neck (SCCHN)

This presentation will discuss how disruption of the regulatory pathways exploited by malignancies to evade an immune response is a promising investigational approach in many tumor types, including SCCHN. Increased understanding of the interactions across pathways has opened new avenues for expanding the potential of immune-mediated approaches. This presentation aims to educate on relevant immune pathways, the basis for combination approaches, and the rationale for an immune-mediated approach in SCCHN.
