

# Transoral Surgery for Head and Neck Pathology Course

## with Hands on Robotic and Laser Sessions

Saturday, July 16, 2016

12:30pm to 7:00 pm

Washington State Convention Center

Course Director: Dr. Umamaheswar Duvvuri

Co-Director: Dr. Vikas Mehta

Local Organizer: Dr. Eddie Mendez

Transoral Surgery for Head and Neck Pathology is a course designed to give Otolaryngologists, Head and Neck Surgeons, Radiation oncologists, and Head and Neck Oncologists a focused educational experience in transoral endoscopic techniques for resecting primary head and neck tumors and a better understanding of its role within the multidisciplinary treatment paradigm. The course will uniquely focus on three different Transoral surgical techniques and discuss advantages and limitations for each in various clinical scenarios. Transoral laser microsurgery and two different robotic surgical systems (DaVinci and MedRobotics) will be featured in didactic lectures and case-based, panel discussion. Renowned faculty will emphasize fundamental transoral anatomy, microsurgical and robotic dissection techniques, and surgical exposure. Additionally, there will be a hands-on session with the MedRobotics system.

12:00 pm - 12:20pm	TOS and the "Inside-Out" Approach - Three Dimensional Anatomy <i>Umamaheswar Duvvuri, MD, PhD</i>
12:20 pm - 12:40 pm	An Update on TOS for Oropharyngeal Cancer - New Evidence and Clinical Trials <i>Chris Holsinger, MD</i>
12:40 pm - 1:00 pm	Emerging Technology for TOS <i>Stephen Lang, MD</i>
1:00 pm - 1:20 pm	TORS for Supraglottic and Total Laryngectomy <i>George Lawson, MD</i>
1:20 pm - 1:40 pm	A New Paradigm for the Management of the Unknown Primary <i>Eduardo Mendez, MD</i>
1:40 pm - 2:00 pm	TOS for Sleep Apnea <i>Claudio Vicini, MD</i>
2:00 pm - 2:10 pm	Break
2:10 pm - 2:30 pm	Robotic-Assisted Neck Dissection <i>Yoon Woo Koh, MD</i>
2:30 pm - 2:50 pm	Morbidity and Costs Associated with Oropharyngeal Cancer Treatment: A Comparison of Different TOS Modalities and Chemoradiation <i>Vikas Mehta, MD</i>
2:50 pm - 3:30 pm	Video Case-Based Panel Discussion - Which Approach/Technology Would I use and why? <i>Moderators: Vikas Mehta, MD, Umamaheswar Duvvuri, MD, and Eduardo Mendez, MD</i> <i>Panelists: Bert O'Malley, MD, George Lawson, MD, Scott Magnuson, MD, Stephen Lang, MD, and David Goldenberg, MD</i>
3:30 pm - 7:00 pm	Hands-on Session
